## **App Description:**

My Project Emergency Chittagong is based on Android Application. This Application is very useful and helpful in emergency time. When there is sudden accident or emergency time like accident, fire accident, crime, blood need, and hospital address. This this app can provide information of these service in Chittagong

My Application's Key feature Are:

- Hospital
- Ambulance Service
- Police
- Fire Service
- Blood Donation

Every feature have three different type of service for user:

1. Call
2. Google Map
3. Shareable
